

Benchttop Tube Straightener

New Methods Improving Efficiency and Reducing Waste

Using coiled tubing allows installers to run continuous lines of seamless tubing without fittings or welding. The tube straightener allows installers to straighten exactly what they need, reducing waste and connections.

Features

- Straightens 1/4, 3/8 and 1/2 in. heavy walled tubing
- Reduces waste and saves time - straighten exactly what they need.
- Fast! Set up and pull tubing in minutes
- One person can pull even heavy walled 1/2 in. tubing
- Lightweight (42 lbs.) straightener
- Change sizes in minutes
- Mounts on a bench top, tail gate or any similar surface
- Durable carrying case contains everything necessary to straighten tubing.

Benefits

- Reduces waste
- Easy to use
- Fast setup and change overs
- Straightens 1/4, 3/8 and 1/2 tubing including heavy wall tubing

Bill of Materials (Part# TP-TS-468)

Component	Quantity
Straightener Base	1
Dies	
1/4 in. Rollers	5
3/8 in. Rollers	5
1/2 in. Rollers	5
Roller Bolts & Washer	5
Calibration Rods	
1/4 in.	1
3/8 in.	1
1/2 in.	1
Other	
Tailgate Mount	1
Clamps	2
Pelican Carrying Case	1
Die Holders	2
